SKILLS SUMMARY

- **Languages**:   C++, Java
- **Tools/Platforms**:   VSCode, Git, GitHub, Canva, Grammerly, SEO
- **Soft Skills**:   Problem Solving Skills, Project Management, Adaptability, Teamwork

PROJECTS

- **Weather Forecast Application** | **Tech:** HTML, CSS, JavaScript   Dec 2024
  - Developed a responsive web application that retrieves and displays real-time weather data using the OpenWeather API, providing users with up-to-date weather conditions based on their location.
  - Implemented dynamic data retrieval and presentation to ensure accurate and seamless user experience.
  - Enhanced full-stack development skills by integrating a user-friendly interface with real-time API responses.

- **Online Notes Sharing Platform** | **Tech**: HTML, Tailwind CSS, JavaScript, MySQL, Bootstrap   Nov 2024
  - Built a secure, responsive platform that allows users to upload, view, and download academic notes, streamlining the study material exchange process.
  - Designed and implemented a structured file management system to support easy categorization, retrieval, and management of notes.
  - Enhanced user experience and collaboration among students by optimizing the interface for usability and accessibility.

EXPERIENCE

JUNIOR CONTENT WRITER (STUDENT ROLE)

Coding Blocks, Lovely Professional University   Jan 2023 - Present

  - Acted as the junior content writer in LPU's student-run technical community, Coding Blocks.
  - Managed and produced written content for university-wide events, including awareness campaigns, induction sessions, coding contests, and cultural programs.
  - Collaborated with event organizers, developers, and designers to deliver engaging blogs, social media posts, and promotional materials.
  - Contributed to developing a structured content strategy that enhanced event reach and student participation.
